DETAILED ACTION

Response to Amendment

Election/Restrictions

1. The election restriction was previously made FINAL, and being proper, there is no reason for its withdrawal and rejoinder of claims.

Specification

The amendments in response to the Objection to the title of the Previous Office Action are acknowledged and appreciated, and the Examiner withdraws the objections.

Claim Objections

The amendments in response to the Claim Objections of the Previous Office Action are acknowledged and appreciated, and the Examiner withdraws the objections.

Claim Rejections - 35 USC § 112

The rejections under this heading of the previous Office action are withdrawn in view of amendment.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1,13,14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed

Art Unit: 1762

invention. The limitation “which partially screens and color modifies the base coat color” is deemed to be new matter because no such limitation could be found in the original filing, and Applicants failed to cite support for the new limitations. The Examiner could find no such language or its equivalent.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1,13,14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claims 1,13,14 are vague and indefinite because it is unclear what is meant by “partially screens and color modifies” in context;
- Claim 1, the claim is vague and indefinite because in steps 4 and 5, it is unclear whether or not, or how, the “grain and coloration of a selected wood type” and the “a wood grain and coloration” are related.

Claim Rejections - 35 USC § 102 and 35 USC § 103

The claim rejections of the previous Office Action are withdrawn because they do not cite a process step “which partially screens and color modifies the base coat color”; however this limitation is deemed to be New Matter and indefinite above, such that cancellation/ amendment could potentially invoke previous prior art rejections. Thus claims 1,13,14 are rejected and accordingly dependant claims 2-4,15,16 are objected to for depending from a rejected base claim.

Double Patenting

The amendment necessitates the double patenting rejection below:

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claim 1 is rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 7097879. Although the conflicting claims

Art Unit: 1762

are not identical, they are not patentably distinct from each other because the instant case encompasses the steps of US879. Step 1 of US879 utilizes a specific opaque pigmented base coat whereas that of instant claim 1 is generic to that base coat; the “applying” steps result in the same or similar darkening graining, the specific grain coat of US879 being encompassed by the generic graining coat of the instant application; and the spreading steps both result in coloration or recesses while retaining coating on the texture surface to result in grain and coloration of a selected wood; drying steps are the same.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
